

# MARVIN MONDEJAR RONQUILLO

## Software Engineer

Santo Domingo 3133, Nueva Ecija, Philippines

☎ +63936-041-7802    ✉ mondejarmarron18@gmail.com    🌐 iforgetech.com    🐙 github.com    🔗 linkedIn.com

## PROFESSIONAL SUMMARY

Highly motivated and results-oriented **Software Engineer** with over **4 years** of experience in full-stack development, frontend design, and system integrations. Proven expertise in developing enterprise-level applications, eCommerce solutions, and CRM systems. Skilled in leveraging modern technologies and frameworks, collaborating with cross-functional teams, and mentoring junior developers.

## TECHNOLOGIES & TOOLS

- **Frontend:** ReactJS, NextJS, Typescript, Tailwind CSS, ShadCN/UI, SCSS/SASS, Framer Motion
- **Backend:** Node.js, Express.js, Typescript, Socket.io
- **Databases:** MongoDB, MySQL, PostgreSQL, Prisma, Mongoose
- **DevOps & Tools:** AWS, Docker, Git, GitHub, Gitlab, MS Azure Repo, Jenkins, Nginx, Vercel
- **Other Skills:** JWT, Redux Toolkit, Swagger, OpenAI API, Google APIs, Linux, Cron jobs
- **Project Management:** Jira, Confluence, Monday, MS Azure Boards

## EXPERIENCE

### Software Engineer

#### Career Edge LLC – Remote Setup

📅 09/2024 – 11/2024    📍 United States

- Enhanced and maintained enterprise-level job portal functionality by implementing new features and resolving bugs.
- Utilized **NextJS**, **Node.js**, **NestJS**, **MongoDB**, **JavaScript/TypeScript**, **TailwindCSS** and **Docker** to deliver efficient and scalable solutions.
- Collaborated with global development teams using **Git**, **Jira**, and **Confluence** for task tracking and documentation.

### Software Engineer

#### Freelance – Remote Setup

📅 04/2024 – 07/2024    📍 New Zealand

- Developed an ecommerce website using **BigCommerce**, and integrated custom forms.
- Implemented custom design features using **JavaScript**, and **CSS**, improving user navigation and experience.

### Software Engineer

#### Lightweight Solutions – Hybrid Setup

📅 06/2022 – 03/2024    📍 Quezon City, Philippines

- Led full-stack development for various projects, including CRM systems and microsites, utilizing **ReactJS**, **NextJS**, **TailwindCSS**, **JavaScript/TypeScript**, **Node.js**, **ExpressJS**, **ANT Design**, **Framer Motion**, and **Swagger**.
- Collaborated with the development team using **Git**, and **Monday** project tracking, and management.
- Utilized **MongoDB** for NoSQL database management, **AWS EC2** for backend deployment, **RDS** for **MySQL/PostgreSQL** databases, **S3** for static file storage (client images and videos), and **Amplify** and **Vercel** for frontend deployment.
- Tasked with managing **AWS servers** under the guidance of senior team members and responsible for reporting **AWS billing** and related updates to management and the CEO.
- Used **Cron jobs** to automate tasks such as sending emails, updating the database, and pulling data from third-party APIs (e.g., Oracle NetSuite) for CRM integration.
- Created detailed API documentation with **Swagger** for frontend developers to easily consume APIs.
- Integrated **Google APIs** including **reCAPTCHA**, and **Map (Geolocation, Places, Directions API)** to enhance the application's functionality.
- Mentored junior developers, improving team efficiency and fostering professional growth.
- Managed domains using **Namecheap** and **Cloudflare**.

### Consultant Software Engineer

#### Airfi Networks Services Limited – Remote Setup

📅 03/2023 – 04/2023    📍 United Kingdom

- Developed a marketing website with interactive animations using **NextJS**, **TailwindCSS**, **Framer Motion**, and **JavaScript/TypeScript**.
- Integrated chatbot functionality to improve user engagement.
- Used **MS Azure Boards** and **MS Azure Repo** for project tracking and management tools.

## Front End Developer

### Freelance – Remote Setup

01/2022 – 07/2022 Cavite, Philippines

- Developed a web app for auto shops with transaction and service management features.
- Used **ReactJS**, **TypeScript**, **Redux Toolkit**, **React Hook Form**, **Axios**, and **Material UI**.
- Created a responsive interface and managed projects with **Microsoft Azure Boards and Repo**.

## Front End Developer

### Real IT Consulting Corporation – Remote Setup

12/2021 – 06/2022 Paranaque City, Philippines

- Developed and maintained websites using **WordPress**, **Elementor**, **JavaScript**, **CSS/SCSS** and **Bootstrap**.
- Maintained an e-commerce site to ensure ongoing smooth operations and updates.
- Created various promotional materials to support marketing efforts.
- Produced web designs, manuals, and brochures using **Figma** to enhance visual communication and branding.

## Front End Developer

### Freelance – Remote Setup

11/2021 – 05/2022 Canada

- Developed a blog site, ensuring a user-friendly experience with responsive design using **JavaScript**, **CSS** and **Bootstrap**.
- Managed the domain via **Namecheap** and hosted the application on **GitHub Pages**.
- Provided training to the client on how to operate and manage the blog content independently.

## Full Stack Developer

### Freelance – Remote Setup

08/2020 – 11/2021 Dubai

- Developed a comprehensive website and web application, allowing the client to publish blogs and vlogs with an easy-to-use interface.
- Integrated features for sharing recipes and displaying products, enhancing user engagement and content sharing.
- Managed the domain through **Namecheap** and ensured reliable hosting with **HostGator** for seamless website performance.
- Utilized **JavaScript** for interactive elements and **PHP** for backend functionality to support dynamic content and user interactions.

## AWARDS

### MVP of the Year

#### Lightweight Solutions

2022

- Awarded MVP for exceptional contributions to developing lightweight solutions that improved efficiency and performance.
- Demonstrated leadership, problem-solving, and technical expertise, earning recognition for driving innovation and delivering impactful results.

## ACHIEVEMENTS

#### Impact 2050 Hackathon

2020 University of Cordilleras

Participated in the hackathon focused on innovative solutions for future impacts.

#### 9th I.T. Skills Olympics Hackathon

2019 University of Makati

Participated in the university's annual IT-focused competition.

#### KOMUNIKATHON, 1st Inter-school Digital Hackathon

2019 Sta. Mesa, Manila, Philippines

Participated in the 1st Inter-school Digital Hackathon at the Communication Foundation for Asia.

## LATEST PROJECT

### X8T

09/2024 – Present

[www.npmjs.com/package/x8t](https://www.npmjs.com/package/x8t)

Developed an **npm package** for efficient error handling in both synchronous and asynchronous functions, improving application stability and reducing code clutter.
